

## **AUGUST 14, 2018 ROAD CONSTRUCTION UPDATE**

The contractor has been working hard to get the seal coat layers completed. On Sunday, the website was updated with a notification that seal coating work will take place this week. Also, the contractor started placing no parking signs last week. Today, while working on Yorkshire and Cheshire, the contractor had to spend several hours contacting and waiting for members to move their cars from the road. A parking ban from 6 am to 6 pm has been in effect since July 2nd on all roads receiving a new road surface this year (see the list below). This was also communicated in the letter sent to all members in the spring. To keep costs low, it's best that all members adhere to this parking ban.

After today's experience, it's clear that parking is still an issue. Therefore, from **August 15, 2018 to September 1, 2018 there will now be a 24-hour parking ban on Heritage Lake Association streets and shoulders**. The affected streets are listed below. HLA security will be patrolling each day to enforce the ban and will contact members via phone or doorbell if a vehicle is parked on the side of the road. If warnings are not adhered to, the vehicle or obstruction will be removed at the owner's expense.

### **Roads Under Construction in 2018:**

- Berkshire
- Fairfax
- Fleetwood
- Carlton
