

SEPTEMBER 2, 2018 ROAD CONSTRUCTION UPDATE

The final seal coat layer has been applied to all roads. The contractor is expected to be sweeping up the excess rock this week and next week.

The 24-hr. parking ban was lifted on Sept 1 and a parking ban will not be in place between Sept 1 and Sept 3rd. Starting Sept 4, 2018 at 6 am, a new parking ban will be in effect from 6 am to 6 pm Monday through Friday until further notice. This is to allow the contractor to finish sweeping, touch up, and shoulder operations.

In the months of Sept and Oct 2018, there will be additional road surface work completed such as minor touch up and speed bump construction.

As a reminder, after Sept 4, 2018, the pipe lining contractor will be in the subdivision restoring cross road culverts.
