

SEPTEMBER 23, 2018 ROAD CONSTRUCTION UPDATE

Most of the sweeping was finished last week, there might be a few areas that are touched up this week.

The parking ban is still in effect from 6 am to 6 pm Monday through Friday until further notice. This is to allow the contractor to finish touch up and shoulder operations.

In the months of Sept and Oct 2018, there will be additional road surface work completed such as minor touch up and speed bump construction. There will also be some shoulder work to ease transitions.

During the coming week, the new speed bumps will be enhanced and painted by the contractor. The existing speed bumps near Heritage Lake and Brandy Dr and at the beach will be painted by the HLA maintenance crew. New signage for all the speed bumps is in the planning stages and will be installed sometime this fall.

The pipe lining contractor will be in the subdivision restoring cross road culverts starting on Oct 1st.
